

Authors' Acknowledgements

Primary Health Care facilities survey

The contributions by Max Bachmann and Leon Seymore (Department of Community Health, University of the Free State) are gratefully acknowledged.

The Health Sector Strategic Framework: a review

With thanks to Reg Magennis, Yogan Pillay, Sayo Skweyiya, Krisch Vallabjee and Welile Shasha who offered invaluable insights and suggestions on drafts of this chapter.

Public sector financing

The authors wish to applaud the hard work and commitment shown by all our colleagues from the Health Economics Unit, the Centre for Health Policy, the University of Durban-Westville and the National Department of Health in the compilation of the NHA Public Sector report. Particular mention must be made of Di McIntyre for her assistance above and beyond the call of duty.

Special thanks must go to the funders and organisers of the NHA project: the National Department of Health and the European Union, with special mention for the guidance and assistance of Vishal Brijlal, Martin Hensher and Pat Masobe. Our appreciation must also go to the Steering Committee members who were extremely supportive and provided important interventions to move us forward when faced with looming obstacles.

Social Health Insurance

We are sincerely grateful to the many people who gave us their time during the course of the project from which this chapter is drawn, either through lending us documentation, agreeing to be interviewed or giving us extensive feed-back on our analyses. We also thank the funders of the project: USAID's Partnerships for Health Reform project (through its Major Applied Research grants programme); the European Union (through INCO-DEV research funding, contract number ERBIC18-CT97-0218); and the South African Medical Research Council, through the Centre for Health Policy's MRC Research Group on Health Policy.

HIV/AIDS – current issues

With thanks to Mrs S. Nair and Dr D. Wilson

Malaria

The Malaria Control Managers from South Africa and the GIS and Database staff in Mpumalanga and the MRC are acknowledged for their contribution to the collaboration in developing the MIS.

Child Health

- ◆ Professor David Power for reviewing the draft chapter
- ◆ Mr G de Klerk, Nutrition Directorate, Department of Health, for providing data on the INP
- ◆ Ms. Fawzia Desai, PAWC and Ms. Nthombi Masibuko, National MCWH, for providing information on the IMCI
- ◆ Dr. Steven Donohue for writing the case study on IMCI
- ◆ All other researchers and colleagues who provided telephonic and written information and references for inclusion into the chapter. They are too numerous to mention individually.

Disaster Management

With thanks to Janet Love of the ANC, Johan Minnie of Cape Metropolitan Council and Henk van Elst, consultant, for detailed comments.
