Acknowledgements

The District Health Barometer is a collective effort. This report could not have been prepared without the generous contribution of numerous individuals and groups who have been instrumental in the realisation of this publication.

The National Department of Health is acknowledged for the use of the data obtained from the District Health Information System and the electronic TB register (ETR.net).

The health expenditure data, so crucial to the complement of indicators, was obtained from the National Treasury. Our thanks go to Mark Blecher for supplying the information and for his help with the interpretation thereof.

Our thanks go to the members of the DHB advisory group for their input and advice. The members for the 2011/12 edition include:

Peter Barron (Independent Consultant), Candy Day (HST), René English (HST), Abraham Malaza (HST), Naomi Massyn (HST), David Pienaar (Western Cape DoH), Sonja Venter (HISP), Ronel Visser (HST), Tim Wilson (HST Board Trustee) and Milani Wolmarans (NDoH).
