Acknowledgements

The District Health Barometer is a collective effort. This report could not have been prepared without the generous contribution of numerous individuals and groups who have been instrumental in the realisation of this publication.

The National Department of Health is acknowledged for the use of the data obtained from the District Health Information System and the national TB register.

Thanks goes to the members of the DHB advisory group who provided their input and advice and their feedback on the previous publication, the District Health Barometer year 2005/06. The members include:

Bennett Asia, Debbie Bradshaw, Lilian Dudley, Ike Hloka, Carina Idema, Peter Kgapole, Lindiwe Makubalo, Thulani Masilela, Morris Mathebula, Nhlanhla Ntuli, Yogan Pillay, Gcina Radebe, Steve Reid, Khethisa Taole, Kerry Vermaak, Ronel Visser.

The health expenditure data, so crucial to the complement of indicators, was obtained from The National Treasury. Thanks goes to Mark Blecher for supplying the information and his help with interpretation thereof.

The TB Directorate, and Carina Idema, who assisted with the TB indicators.
