Acknowledgements

The District Health Barometer (DHB) is a collective effort. This report could not have been prepared without the generous contribution of numerous individuals and groups who have been instrumental in the realisation of this project.

The National Department of Health is gratefully acknowledged for the use of the data obtained from the District Health Information System.

Thanks goes to the members of the DHB advisory group who provided their input and advice on drafts to this publication and their feedback on the previous publication, the District Health Barometer year 1. The members include:

Bennet Asia, Debbie Bradshaw, Lilian Dudley, Ike Hloka, Carina Idema, Peter Kgapole, Lindiwe Makubalo, Morris Mathebula, Nhlanhla Ntuli, Yogan Pillay, Gcina Radebe, Steve Reid, Khethisa Taole, Kerry Vermaak, Ronel Visser.

The Health Management Information Systems project within HST works closely with the DHB team to provide the information emanating from the DHIS, as well as further insight into this data. Thanks to Ronel Visser (project manager), Rakshika Bhana, Naomi Massyn and Naadira Karrim for their support in extracting the data from the DHIS.

The health expenditure data, so crucial to the complement of indicators, was obtained from The National Treasury. Thanks go to Mark Blecher for supplying the information and his help with the interpretation thereof, and Rob Cairns from the Valley Trust for unpacking the BAS for easier use.

Information and guidance with the Geographic Information Systems and data for mapping, came from Shannon Rushworth (GIS unit KZN DoH) and Natasha Morris (MRC GIS unit).

The TB Directorate in the national Department of Health and Carina Idema, who assisted with the TB indicators.
