We are grateful to the Editorial Committee members, particularly Andy Gray, Peter Barron, Eric Buch, Matsie Ratsaka as well as HST staff: Fiorenza Monticelli, Ashnie Padarath and Rob Stewart for reviewing and commenting on many of the chapters of the Review.

We wish to thank all the Peer Reviewers who took time out from their busy schedules to review and comment on the chapters in their area of expertise.

We extend our gratitude to the national and provincial Departments of Health for their input.

## **Other Support**

We extend our appreciation to the individual authors who accepted tight deadlines and often responded to editing demands at short notice.

We are indebted to many individuals, including HST staff, who assisted in the production of this Review. Once more, Lynda Campbell and the staff of The Press Gang have worked tirelessly to ensure that the design, layout and printing of the Review are of high quality.
